

Product Description

HD Degreaser, is a ready to use VOC compliant cleaner, formulated with select surfactants, chelates and cosolvents to effectively break down and remove persistently tough contaminants from a wide variety of surfaces.

Uses

HD Degreaser efficiently dissolves and emulsifies greases, oil spills, tar and tire marks on concrete, terrazzo, granite, stone floors. It is ideal for use in residential garages, parking lots, public facilities and household cleaning.

Application Instructions

Apply HD Degreaser over the contaminated area and allow it to soak, the softening time depends on the degree of staining and ambient conditions. **Do not allow the surface to dry.**
Scrub the surface with stiff bristle brush or auto scrubber if the stains are aged or imbedded. Rinse the cleaned area with cool, clean water.
Thorough rinsing is necessary to remove the loosened materials that the HD Degreaser has dissolved.
Keep rinsing with water until there are no visible residues on the surface.
Repeat applications may be necessary until the desired results are achieved.

Limitations

Use as is, do not dilute.
Do not use on or allow contact with aluminum surfaces.
Temperature limits: 35°F (2°C) to 130 °F (57°C).
Disposal of rinse should follow all local, provincial and federal regulations.

Sizes

HD Degreaser comes in 1 litre and 3.78 litre bottles.
